

Help, We Need To...

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
1	Help, we need to increase profit.	ISO 9001	Improves process control, reduces errors, prevents rework and strengthens customer satisfaction.	Better margins, fewer losses and increased repeat business.
2	Help, we need to reduce waste.	ISO 9001 + ISO 14001	Identifies operational waste, material loss, inefficient processes and environmental waste streams.	Lower costs and cleaner operations.
3	Help, we need to improve productivity.	ISO 9001	Defines clear processes, responsibilities, standards and performance measures.	Staff work smarter with less confusion and duplication.
4	Help, we need to reduce workplace injuries.	ISO 45001	Identifies hazards, assesses risks and implements effective health and safety controls.	Fewer incidents, less downtime and improved morale.
5	Help, we need to win bigger contracts.	ISO 9001 + ISO 14001 + ISO 45001	Demonstrates professional control of quality, environmental and safety risks.	Improved credibility and stronger tender competitiveness.
6	Help, we need to improve customer satisfaction.	ISO 9001	Captures customer requirements, monitors feedback and improves service delivery.	More loyal customers and stronger referrals.

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
7	Help, we need to reduce complaints.	ISO 9001	Tracks complaints, investigates root causes and implements corrective actions.	Fewer repeat problems and improved customer confidence.
8	Help, we need to comply with legal requirements.	ISO 14001 + ISO 45001	Identifies applicable environmental and safety laws and manages compliance obligations.	Reduced legal risk, fines and business disruption.
9	Help, we need to control our suppliers.	ISO 9001	Establishes supplier approval, evaluation and performance monitoring.	Better inputs, fewer delays and improved product or service quality.
10	Help, we need to reduce operating costs.	ISO 9001 + ISO 14001	Improves efficiency, reduces waste and controls resource consumption.	Lower expenses and improved profitability.
11	Help, we need to improve staff accountability.	ISO 9001 + ISO 45001	Defines roles, responsibilities, authorities and process ownership.	Clearer expectations and better performance.
12	Help, we need to stop repeating the same mistakes.	ISO 9001	Uses non-conformance, root cause analysis and corrective action processes.	Problems are fixed properly instead of repeatedly patched.
13	Help, we need to improve business growth.	ISO 9001 + ISO 14001 + ISO 45001	Creates structured systems that support controlled expansion.	Growth becomes scalable, credible and less risky.

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
14	Help, we need to improve efficiency.	ISO 9001	Maps processes, removes bottlenecks and standardises best practice.	Faster workflow and improved use of resources.
15	Help, we need to manage environmental risks.	ISO 14001	Identifies environmental aspects, impacts, risks and controls.	Reduced pollution risk, better compliance and improved reputation.
16	Help, we need to improve safety culture.	ISO 45001	Involves workers, promotes consultation and embeds proactive risk management.	Safer behaviour and stronger worker engagement.
17	Help, we need to reduce downtime.	ISO 9001 + ISO 45001	Improves planning, maintenance, risk control and incident prevention.	Better continuity and more productive working time.
18	Help, we need to improve management control.	ISO 9001	Introduces objectives, performance indicators, reviews and evidence-based decision-making.	Leaders manage using facts, not assumptions.
19	Help, we need to improve tender success.	ISO 9001 + ISO 14001 + ISO 45001	Provides evidence of structured quality, environmental and safety management.	Stronger tender submissions and buyer confidence.
20	Help, we need to professionalise the business.	ISO 9001	Formalises processes, records, responsibilities and management reviews.	A more organised, reliable and mature business.
21	Help, we need to reduce rework.	ISO 9001	Controls requirements, inspections, process	Less wasted time, material and labour.

44	Help, we need to improve legal compliance confidence.	ISO 14001 + ISO 45001	Maintains compliance obligations, evaluations and corrective actions.	Reduced exposure to enforcement action.
45	Help, we need to improve worker participation.	ISO 45001	Requires consultation and participation in safety matters.	Better hazard identification and stronger buy-in.
46	Help, we need to reduce absenteeism.	ISO 45001	Improves hazard control, wellbeing awareness and incident prevention.	More available working time and improved morale.
47	Help, we need to reduce staff frustration.	ISO 9001	Clarifies processes, responsibilities and expectations.	Less confusion and better workplace energy.
48	Help, we need to manage contractors better.	ISO 9001 + ISO 45001 + ISO 14001	Sets requirements for quality, safety and environmental performance of external providers.	Reduced contractor risk and better service outcomes.
49	Help, we need to improve site control.	ISO 9001 + ISO 14001 + ISO 45001	Introduces controls for work quality, environmental impacts and health and safety risks.	Better site performance and fewer incidents.
50	Help, we need to reduce material losses.	ISO 9001 + ISO 14001	Controls purchasing, storage, handling, use and waste.	Lower material cost and improved margins.
51	Help, we need to improve stock control.	ISO 9001	Improves purchasing, traceability, storage and stock monitoring.	Fewer shortages, losses and delays.

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
52	Help, we need to reduce pollution.	ISO 14001	Identifies pollution sources and implements prevention controls.	Cleaner operations and reduced environmental risk.
53	Help, we need to control chemicals better.	ISO 14001 + ISO 45001	Manages storage, handling, use, disposal, exposure and emergency response.	Safer staff, reduced spills and improved compliance.
54	Help, we need to improve maintenance.	ISO 9001 + ISO 14001 + ISO 45001	Links maintenance to quality, safety and environmental performance.	Fewer breakdowns, incidents and inefficient operations.
55	Help, we need to improve customer trust.	ISO 9001	Demonstrates consistent quality management and customer focus.	Stronger relationships and more repeat work.
56	Help, we need to improve board reporting.	ISO 9001 + ISO 14001 + ISO 45001	Provides measurable indicators for quality, environmental and safety performance.	Better strategic oversight and decision-making.
57	Help, we need to reduce fire risk.	ISO 45001 + ISO 14001	Controls workplace hazards, flammable materials, emergency planning and inspections.	Safer premises and reduced loss potential.
58	Help, we need to improve incident investigation.	ISO 45001	Requires investigation, root cause analysis and corrective action.	Fewer repeat incidents and stronger prevention.
59	Help, we need to improve environmental reporting.	ISO 14001	Tracks environmental objectives, incidents, resource use and compliance.	Better transparency and performance management.

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
60	Help, we need to improve quality inspections.	ISO 9001	Defines inspection points, acceptance criteria and evidence requirements.	Defects are identified before reaching customers.
61	Help, we need to improve service delivery.	ISO 9001	Aligns customer requirements, service processes, resources and performance checks.	More reliable service and improved customer loyalty.
62	Help, we need to reduce business risk.	ISO 9001 + ISO 14001 + ISO 45001	Identifies operational, environmental and safety risks before they become failures.	Better resilience and fewer costly surprises.
63	Help, we need to improve planning.	ISO 9001	Requires objectives, resources, risk consideration and process planning.	Better execution and fewer last-minute crises.
64	Help, we need to improve project control.	ISO 9001 + ISO 45001 + ISO 14001	Controls project quality, safety, environmental impacts, responsibilities and records.	Better project outcomes and reduced risk.
65	Help, we need to improve internal audits.	ISO 9001 + ISO 14001 + ISO 45001	Uses audits to test whether systems are working effectively.	Earlier detection of weaknesses and improvement opportunities.
66	Help, we need to improve management reviews.	ISO 9001 + ISO 14001 + ISO 45001	Turns performance data into management decisions and improvement actions.	Better leadership control and strategic alignment.

Help, We Need To...

No.	Business Challenge Prompt	ISO Standard(s)	How the Management System Assists	Business Benefit
67	Help, we need to improve company culture.	ISO 9001 + ISO 45001	Builds accountability, communication, participation and continuous improvement.	Stronger ownership and more disciplined performance.
68	Help, we need to improve sustainability.	ISO 14001	Reduces resource use, pollution, waste and environmental risk.	More responsible growth and improved stakeholder confidence.
69	Help, we need to reduce carbon impact.	ISO 14001	Helps identify energy, fuel and emission-related activities for improvement.	Lower environmental footprint and better market credibility.
70	Help, we need to improve purchasing decisions.	ISO 9001 + ISO 14001	Evaluates suppliers, product quality, environmental impact and lifecycle considerations.	Better value, lower waste and improved supply reliability.
71	Help, we need to improve operational discipline.	ISO 9001 + ISO 14001 + ISO 45001	Defines what must be done, who must do it and how performance is checked.	Less chaos and stronger daily control.
72	Help, we need to scale the business.	ISO 9001	Creates repeatable systems that allow growth without losing control.	Expansion becomes more manageable and less owner-dependent.
73	Help, we need to reduce defects.	ISO 9001	Controls inputs, processes, inspections and corrective actions.	Higher quality and fewer customer problems.
74	Help, we need to improve employee motivation.	ISO 9001 + ISO 45001	Clarifies expectations, improves involvement	Better engagement and stronger team performance.
